Hi Mark,

I'd like to get this meeting scheduled if you have a chance. Lee needs to make travel plans.

Thanks,

Gary

Subject: CEAP meeting with Lee Norfleet

Mark,

Lee Norfleet will be flying out here to meet with us again about the model comparisons and we need you there to talk about how Ag is simulated.

I know you're in Canada this week, but can you give me some availability over the following two weeks? The 28th and 29th might be particularly good as the 28th is the CEAP monitoring meeting.

Thanks,

Gary
